A Unique System of Oral Health Products for those Needing Assistance with Daily Oral Care

Plak-Vac® - The Toothbrush with Suction

The Plak-Vac suction toothbrush cleans the mouth and removes oral secretions for those with difficulty swallowing and expectorating or who cannot perform routine oral care.

No need to get up or turn the head to spit, the Plak-Vac suction toothbrush does the work!

Use with wall suction or portable pumps.

Good oral hygiene can improve the condition of the oral cavity, helping to reduce halitosis, slow the growth of dental plaque and prevent staining, gum disease and tooth decay.

We have the solution to your oral care needs including pre-packed swabs, mouthwash and mositurizer. Ask Us Today!
